### Brief Introduction of the Organization

JOINN Laboratories is the first pre-clinical CRO inspected by the U.S. FDA for GLP compliance in China. JOINN is the only professional new drug pre-clinical safety evaluation institution in China, which was accredited by AAALAC International for animal welfare, GLP certificated by CFDA and OECD, and also GLP inspected by Korean MFDS. The safety study reports provided by JOINN have been accepted by U.S. FDA, CFDA, Korean MFDS and drug regulators of many nations in the European Union, for supporting IND applications and commencing clinical trials.

JOINN is the pioneer of commercial GLP laboratories in China, with an excellent track record spanning over two decades and more than 600 staff, we can provide tailored service to our clients' unique needs that encompass the full spectrum of outsourcing services, including personalized programs for study projects, drug screening, pharmacodynamics study, pharmacokinetic study, safety evaluation, clinical trial, and registration service; therefore, our services cover the whole process from drug discovery to new drug registration, and in addition, we can provide safety evaluation of agrochemicals, clinical devices and food animals, as well as selling high quality laboratory animals for scientific research. Our clients are from more than 20 provinces in China, many countries in Europe and America, and Southeast Asia. The variety of drugs JOINN evaluated include biological products, pharmaceutical chemicals and traditional Chinese medicines, covering a wide range of indications, such as anti-cancer, anti-viral, immunoregulation, diabetes, hemopoietic system diseases, bleeding and coagulation system diseases, etc.

Located in Beijing BDA and Suzhou Taicang Biomedical Industrial Park, JOINN has animal feeding and management facilities and modern functional laboratories that meet international standards. Our animal facilities can house non-human primates, dogs, pigs, rabbits, guinea pigs, mice, rats and other laboratory animals; and our laboratories provide clinical examination, analysis, pathology, cell biology, electrophysiology, ophthalmology, and examinations of related indexes. Our technical personnel are well versed in intravenous injection, intramuscular injection, subcutaneous injection, intraperitoneal injection, oral administration, transdermal drug delivery, nasal spray, intravitreal injection, subretinal injection, and various blood adoption methods, such as arterial or venous blood sampling.

JOINN (USA) was established in San Francisco Bay Area, USA, and can do drug screening and pharmacodynamics experiment, and can provide U.S. FDA new drug registration and technical consulting services for clients from China and other countries.

JOINN’s mission is “To provide services for drug innovation, and benefit human society”. We will utilize our rich experience and unrelenting efforts for clients, to provide one-stop service for new drugs from pre-clinical studies to phase I-IV clinical trials and registration.
